SKILLS

Visual Design **UI / UX** **Web Design** **Illustration**

I'm a designer with **10+ years** of professional experience. I'm currently 29 years old and located in Sofia, Bulgaria. My strengths lie in *Visual UI/UX* for the Web & Desktop Apps. I have a B.A. degree in Fine Arts so I also do illustration.

My journey started when I got accepted to the School of Computer Technology and Systems in Pravets, Bulgaria. I started developing websites using HTML, CSS and PHP back in 2005 and after I started learning design and Fine Arts in the University I slowly transitioned to Design. So I have a good understanding of Front-End and Back-End, as well. I speak Bulgarian, Russian & English fluently. My nationality is Bulgarian, but I'm also half-Russian on my mother's side.
